

NATULON+Plus™

CREATE MORE WITH LESS

NATULON+Plus™

Using recycled materials for both the teeth and the tape, NATULON Plus™ contains the highest quantity of recycled materials of our NATULON® products. This higher recycled content further reduces its environmental impact with substantially lower Greenhouse Gas emissions, energy use, and water use compared to items made of virgin materials. For products requiring the most sustainable trims, NATULON Plus™ is the choice.

YKK

Little Parts. Big Difference.

NATULON+Plus™

NATULON Plus™ is a step-up in sustainability over standard NATULON®. While NATULON® only uses recycled material for the zipper tape, NATULON Plus™ uses recycled materials for both the tape and the teeth. With this increased use of recycled material comes higher reductions of CO₂ emissions, energy and water usage over standard NATULON®.

COIL ZIPPER

#3 & #5

VISLON® ZIPPER

#3, #5 & #8

* Slider using recycled zinc is available.

* Recycled Metal Open Parts are available for #5 Coil.

* COMBI color combination is available for #5 VISLON®.

* Recycled PET is post-consumer and recycled POM is post-industrial material.

	RECYCLED MATERIAL RATIO (UNCUT ZIPPER ROLL)	
COIL ZIPPER	#3	100%
	#5	100%

	RECYCLED MATERIAL RATIO (UNCUT ZIPPER ROLL)	
VISLON®	#3	> 73%
	#5	> 73%
	#8	> 75%
VISLON® Flat	#5	> 72%
